Welcome to the Privacy Notice of Avis Budget Group, Inc. and its subsidiaries and affiliates that are located in the European Economic Area and United Kingdom. (We refer to these companies as "**ABG**", "**we**", "**us**" or "**our**" in this Privacy Notice).

PERSONAL INFORMATION WE COLLECT AND HOW WE COLLECT IT

RENTING A VEHICLE

When you make a reservation or rent a vehicle with us we collect the following personal information:

- name;
- email address;
- home address;
- employer details and business address (if you are a member of a corporate program);
- telephone number;
- date of birth;
- gender;
- payment information such as your credit or debit card details (security code is obtained for transaction only – we do not keep it);
- tax number (if specifically requested);
- information from driver's license and/or other government-issued identification, including if you are an additional driver for the specific rental;
- information from another form of identification documentation such as a passport or national identity card if your driver's license does not include a photo or is not recognizable as you and/or proof of address such as a utility bill. The information we collect and retain will only include your photo ID where you are informed of this;
- special discount codes, partner member numbers, association memberships, corporate rewards programs (if you request discounts, special privileges, and points programs);
- special requests and preferences, including:
 - your preferences regarding optional extras such as damage waivers and other protections;
 - where a delivery or collection service is available, the address where we will drop off or pick-up the vehicle and any optional extras you requested;
- where and when you rented the vehicle, where and when you returned the vehicle, insurance preferences, fuel consumption, mileage, accident history and other personal information related to the vehicle and your use of it;
- where you inform us that you have a medical disability or other health-related requirements that require an adapted vehicle or other driver aid we will use that personal information in order to provide you with the service you requested and where you have given your explicit consent to us using that information;
- ABG maintains a Do Not Rent list of customers who present risks to our business and/or personnel and who will be prevented from making a rental with us as a result of those risks. The personal information ABG processes to maintain this list includes contact and personal details and the reasons why the individual has been included on the Do Not Rent list;
- when returning a vehicle following a rental we may ask you for a fuel receipt and we may retain a copy of that receipt. This fuel receipt may include credit card information, date and location of purchase and is required to confirm that the vehicle has been refueled in accordance with our agreement with you in relation to that rental;
- some vehicles come equipped with a global positioning system (GPS) or similar type tracking connected car technology device that may also collect information about the vehicle and the

location of the vehicle and driving style. To learn about Connected Car Data we collect, see the [Connected Cars](#) section;

- other personal information that may be required to rent you a vehicle and/or provide you with services; and
- in some locations we may be required to collect specific categories of personal data relating to you and your rental so that this can be provided to law enforcement (such as police) where required by applicable law. This may include the personal data set out above as well as additional personal data as required by law (such as gender).

TRAFFIC AND MOTORING OFFENCES

We will collect personal information about any speeding, parking, toll or other traffic-related fines that you incur or any traffic offenses that you commit during your rental where these are provided to us by any law enforcement agency, parking authority or toll authority.

ACCIDENTS, MECHANICAL FAILURES, AND VEHICLE DAMAGE OR THEFT

If you have an accident, or suffer any loss, theft or damage to the vehicle during your rental or suffer any mechanical failure, we will collect information regarding such incident including your report of the incident and any police or other third-party reports including details of those involved, together with the nature of any personal injuries and/or damage to the vehicle and optional extras.

CONTACTING US

When you call us, we may record or monitor the call for quality control, training or similar purposes. We will advise you of this recording or monitoring during the call.

When you contact us by email, text or via social media we will keep a record of your name, contact details and the contents of your messages, queries, feedback or complaints.

DRIVING LICENSE VERIFICATION

We may offer you the option to verify your driving license (or other identification documents) online or through our App via our third party verification provider which may enable you to bypass the counter verification process at our rental stations.

If you proceed with this verification online or through our App we will collect an image of your driving license and selfie in order to complete verification.

The processing of your selfie requires biometric verification and will only be completed where you have provided your explicit consent as biometric data is considered a special category of personal data where processed for identification purposes.

Online verification is optional and you can still complete the digital check-in process without completing online verification. You will still need to register your details and verify your driving license / ID prior to your rental but this can be completed at our rental station when you collect your rental vehicle. However, a failure to complete online verification will mean that you are unable to bypass the counter at our rental stations or rent from unstaffed locations.

We may also offer you the option to create an account with us. This will enable us to retain your verification status so that you can use this verification status for future rentals with us without having to complete the online verification process for each future rental. However, we will still require you to re-verify your driving license and identity at regular intervals and where details require updating – such as where your driving license has expired.

Online verification may also involve the receipt of information from third party fraud check and identity document database check providers.
